**Subject:** Kudos for the Toolbox Crew

Kent,

I wanted to take a moment and let you know how incredibly proud I am of the flawless performance and ease-of-use of the toolbox. I have heard repeated stories of "plugged it in, turned it on, and it worked."

As we all know this type of turnkey solution gets little public press but takes HUGE effort behind the scenes.

Your team has accomplished some amazing things with the technology.

Way to go....

Keyton

Eugenia,  
Thank you so much for the good work on this app.  
This is a great start for us.

-Brian

**Subject:** Some info from today's directors meeting

Team,

Some of the things we discussed at today's director's meeting:

Radiant:

- They are looking to buy us. They will be here tomorrow all day doing due diligence research on us.
- We will have an abbreviated all-hands meeting tomorrow because of it
- We have not heard back from SWAN so these guys might be it.
- I'll be meeting with them throughout the day
- No further details.

HITEC:

- Eugenia's app will be demo'd and highly visible during HITEC
- The sales guys will be focusing on it as a demonstration of our centralized administration and centralized informational aspects of PMS
- It will have the patent pending label affixed

Other stuff:

- No news on other sources of investment, etc...

I'd like to sit down with everyone tomorrow after I know what Radiant's agenda will be.

Tx,  
Kent

Eugenia..

Some time this week, could you come give us an overview of your monitoring UI and some explanations. its looks good.

thanks
